data strategy & business intelligence

about me

I'm a manager with 10+ years of experience working with Data, matured both in Italy and in Germany.

I supervise every step of the data lifecycle: ingestion, manipulation, enrichment and, in particular, analysis and insight generation.

My objective is to foster a data-driven culture and support efficient, self-service decision making.

info

Nationality Italian

Birthdate 1985.01.14

- Guided architectural optimizations leading to **over €100K of savings** in the last year alone
- Sponsored, developed and monetized a **highly-customized analytics and reporting dashboard**
- **Guest speaker** at data-related events and conferences (e.g. AWS Summit)

work experience

2022–now

DOCEBO

Milan and Monza-Brianza, Italy

Director of Data Strategy

Management of the Data Strategy team (9ppl). Data Architecture optimization and migration. Establishment of Data Governance and Analytics practices.

- Team management (3 Data Architects, 3 Data Engineers, 2 Data Analysts, 1 Data Scientist), definition of the Product Data Strategy for C-level stakeholders. Enactment of the Data Governance framework. Set-up of Product Analytics and Product DWH to measure outcomes vs effort and guide Product Managers towards efficiency (North Star Metric project).
- Supervision of the new near-real time Data Lake and design of the Event Tracking system. Monolith Data Architecture migration to micro-services.

2022–2022

ACCENTURE

Milan, Italy

Data Engineering Manager / Applied Intelligence

Development of cutting-edge data platform solutions and techniques to support clients' data processing needs and enable advanced business insights.

- Brembo: leading the Enterprise Data Model stream, and supporting the Data Governance stream
- BPER Bank: designing the new state-of-the-art Data Mesh platform

2017–2021

SHOPFULLY INTERNATIONAL GROUP

Milan, Italy

Head of Data Solutions

Management of the Data Solutions team (20ppl). Pivot point towards Business Directors / Product Managers / Sales Managers.

- Team management (10 Data Engineers, 3 Data Scientists, 5 Data Analysts and 2 Data PMs). Built from scratch the Data Analytics team.
- Strategic support for the B2C and the B2B business lines (e.g. performance monitoring, engagement and CTR optimization, A/B testing, cohort, churn and uplift analysis). Implemented a self-service data strategy.
- Development of the user-profiling DWH (incl. ETL, CloudOps, MLOps)

2014–2017

DAWANDA GmbH.

Berlin, Germany

Head of Business Intelligence

Management of the Data Analytics and Data Engineering teams (5ppl). Development of the first automated BI reporting platform in the company.

- Team management, goals and tasks definition, hiring, C-level reporting
- In-depth analysis and forecasting of the main business KPIs (e.g. correlation, regression, clusterization). Support to define mid-to-long term budgets and strategic objectives. Internal training on data fluency
- ETL development, integration with Google Analytics and BigQuery

2013–2014

SDA BOCCONI SCHOOL OF MANAGEMENT

Milan, Italy

Researcher @ LearningLab

Data analysis and reporting for financial institutions and major companies.

giacomoclemente

data strategy & business intelligence
